Your AnyCustom Solution For Data Acquisition

AnySensor

 *a Dasstec Product*

Smart, modular product in which we continuously
invest newest technology

A Smart IoT Hardware & Software product produced by **Dasstec**
easy to integrate and use in **Any** Industry. It is modular and
integrates IoT electronic boards produced by us so we can offer you
Any Development you need.

 ✓ **MODULAR**

 ✓ **ANY CUSTOM
INTERFACE**

 ✓ **ANY TYPE
OF SENSOR**

 ✓ **NON-INVASIVE**

Technology

AnySensor Telemetry Flow

AnySensor collects critical environmental data through smart sensors, transmits it wirelessly to an IoT Gateway = our AnyBox, and sends it securely to the cloud for processing and storage. Users can then access real-time insights, historical trends, and alerts through a dedicated mobile app = our AnySensor APP BI Platform by Dasstec — enabling smarter decisions, anytime and anywhere.

Telemetry Flow

IoT with AnySensor Telemetry, complete IoT Pyramid produced by Dasstec.

From electronic boards, to 3d printing housing to BI Software.

01

Sensors – Collect data (temperature, pressure, humidity, etc.).

02

IoT Gateway – Receives data and transmits it to the server.

03

Cloud Server – Processes, stores, and analyses the information.

04

Mobile App – Receives data via API and displays it to the user (graphs, alerts, historical data, etc.).
